

The congress is supported by...

...and by the host families of Leone XIII who cheerfully accepted to open their houses to the students taking part in the congress.

The *logo*, created by Father Elias Lopez SJ for the 2015 annual of the Society of Jesus, represents a human eye with our planet as an iris. The iris, or rather the globe, is green, the color of ecology. It invites the viewer to contemplate the world from an ecological perspective, full of hope, a perspective which helps us in our mission of reconciliation with the creation.
